3 Key Tips for getting your car ready for the change of seasons

Car Battery: Fall is a good time to inspect your car battery, making sure the cables and terminals are snug, and retighten as necessary for good contact. **You can bring your car in for a FREE battery test with purchased service.**

Tires: Proper maintenance and responsible driving can maximize the mileage in a set of tires. Monthly tread inspections can inform when the tires warrant replacement. **If you're not sure stop in and we'll take a look at your tires.**

Wipers: If your wipers are leaving streaks of water on your windshield, then it's time to replace them. Wipers typically need to be changed every 6 to 12 months. **We offer FREE installation when you buy your wiper blades from us.**
