Combining Tax Day with April Car Care Month!

Invest Tax Refund in Auto Care and Earn Valuable Dividends

“According to the Internal Revenue Service, the **average tax refund is over \$3,100**. By simply allocating a portion to vehicle maintenance and service, you will realize big dividends in the form of **safety and dependability**,” said

Rich White, executive director, Car Care Council. “The benefits of auto care don’t stop there.

Your vehicle will **perform more efficiently, saving money at the pump**, and its useful life will be extended, **postponing the major expense** of purchasing a new car.”

With proper care, the typical vehicle should deliver at least 200,000 miles of safe, dependable performance. **The most common routine maintenance** procedures and repairs include checking the oil, filters and fluids, belts and hoses, brakes, tires and the HVAC system. The non-profit Car Care Council also recommends an annual tune-up and wheel alignment.

7 Car Noises You Should Never Ignore

Modern engineering has made driving a car easier on the ears than ever. There are some car noises you don’t want to hear, because they can signal trouble. Every once in a while, roll down the windows and start listening for “*any sound that is odd*,” says Mike Peth, director of technical training at Ohio Technical College.

These 7 car noises might be warning signs of trouble:

1. A sound like a coin in a clothes dryer
2. **Brakes squealing, grinding or growling**
3. A popping or clicking sound when you turn
4. A rhythmic squeak that speeds up as you accelerate
5. A howling, whining or even “singing”
6. **Rhythmic clunking, tapping or banging from under the hood**
7. Squealing under the hood at start-up or when accelerating.

Did You Know — Do You Recognize Him?

Burt Mustin, with his trademark white hair and distinctive voice, had one of Hollywood's most unique careers, especially given that he started acting in his 60s. Born in 1884 in Pittsburgh, Mustin didn't initially pursue acting. Instead, he led a remarkably full life: he was a salesman, worked in the newspaper industry, and even volunteered for the local amateur theater. It wasn't until 1951, when he was 67 years old, that his acting career officially took off after director William Wyler discovered him in a theater production and cast him in Detective Story.

From there, Mustin became one of the most recognizable character actors in Hollywood. His appearances on classic TV shows became a hallmark of mid-century American television, making him an iconic "TV grandfather" figure. He was featured in Leave It to Beaver as Gus the fireman, and on The Andy Griffith Show, All in the Family, The Twilight Zone, and even Batman — all beloved shows where he brought warmth, humor, and an unforgettable presence to his roles.

Even more fascinating, Mustin's acting career extended for 25 years, allowing him to work until nearly 93 years old, an impressive feat in the industry. He appeared in over 150 television episodes and films, often playing older men, though he brought a vibrancy to each character that audiences loved. Off-screen, Mustin was known for his friendliness and his love of golf, which he played regularly well into his later years. His passion for acting, combined with his late-in-life career start, makes Burt Mustin a true Hollywood legend who proved it's never too late to begin a new journey.

Caleb Angus

We appreciate the trust that you show in our shop and our service when you refer a friend, family member, neighbor or co-worker!

Customer Comments

"I'm obsessed with Wayne's Garage and tell everyone in West Philly to go here! I go here every year for inspection and throughout the year for maintenance and they have never steered me wrong. They care about me, my car, and they really care about the quality of their work. On top of it all, the people I've interacted with are hilarious and very kind :): **Eve J.**
